TRANSPONET ULTRA STATION

INNOVATIVE DESIGN MEETS HEALTHCARE NEEDS AND MATCHES THE HOSPITAL ENVIRONMENT

TranspoNet™ Pneumatic Tube Systems transport lab specimens, blood products, pharmaceuticals, documents, supplies, and other materials in carriers safely and reliably throughout hospitals. Ultra Stations are advanced units for sending and receiving carriers.

The TranspoNet Ultra Station supports workflow efficiency and enhances quality patient care. It features a next generation design that offers healthcare facilities the simplicity of modern shapes combined with the latest technologies. The ergonomics, the acoustics, the illuminations, and the control panel of the station have been completely redesigned to make use of the pneumatic tube system intuitive for personnel in hospitals, while raising safety and hygiene levels.

FEATURES & BENEFITS

- Smooth shapes enhance easy cleaning and disinfection
- 30% quieter than typical free standing stations, due to optimal acoustics
- Illumination and status lighting support calm setting and easy messaging
- Ergonomically adapted sending and receiving heights improve productivity

TRANSPONET ULTRA STATION IS AVAILABLE FOR 160-MM PNEUMATIC TUBE SYSTEMS
